

DESIGN GUIDE

Architectural privacy, low-maintenance finish.

BQ ScreenMax is a demonstration co-extruded composite batten screening system with a UV-stable polymer cap layer and timber fibre core. Designed for modern residential privacy screens, feature fences, carport infill panels and outdoor room dividers.

Australian Made

Composite Battens

UV-stable cap layer

IDEAL APPLICATIONS

Residential boundary fencing

Privacy screens

Carport infill panels

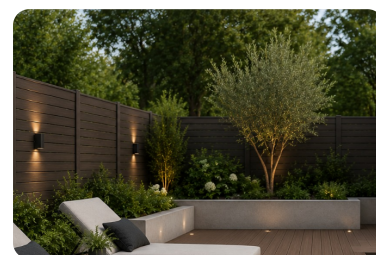

Outdoor rooms

Pool equipment screening

Feature landscape walls

HORIZONTAL PRIVACY SCREENS

OUTDOOR ROOM DIVIDERS

DESIGN INTENT

Use vertical battens for a strong architectural rhythm, horizontal battens for long clean boundary lines, or slatted panels where a broader profile and faster coverage are preferred.

Specify colour, profile and fixing components together so the RFQ includes a complete screening system.

COLOUR OPTIONS

PROFILES

Narrow Batten

3600 x 65 x 20mm
BQ-SCREENMAX-NB-65

Wide Batten

3600 x 90 x 25mm
BQ-SCREENMAX-WB-90

Slatted Panel

3600 x 165 x 18mm
