

BQ FibreLine Flat Sheet Panel - Design Guide

Demo Design Guide – BuildQuote demonstration document only. Refer to the manufacturer's official guide before specification.

Design Intent: Large-format flush façade panel delivering a clean monolithic appearance.

Available Panels: 2400×1200×9mm and 3000×1200×9mm pre-primed fibre cement.

Recommended Use: Residential and light commercial façades, feature walls and entry elements.

Joint Options: Open-jointed with aluminium H-beads or sealed closed joints.

Finish: Site paint over factory primer after installation.
