

BQ FibreLine Weatherboard Plank - Design Guide

Demo Design Guide – BuildQuote demonstration document.

Product: BQ FibreLine Weatherboard Plank – pre-primed fibre cement horizontal lap cladding.

Profiles: 150mm and 180mm face widths, 3600mm long, 8mm thick.

Applications: Residential façades, upper storeys, extensions and feature walls.

Finish: Factory pre-primed. Apply approved exterior paint after installation.

Design Notes: Use consistent lap alignment, integrate flashings, maintain drainage and ventilation, and treat all cut edges before painting.
