Choose the outdoor look

BQ TimberLock is a demonstration pergola system created for the BuildQuote catalogue. It shows how a manufacturer can present lifestyle imagery, finish options, system documents and quote-ready product information from one product card.

NATURAL TIMBER

A light, coastal finish for relaxed patios, family courtyards and contemporary outdoor rooms.

WALNUT STAIN

A warmer architectural look for entertaining zones, alfresco dining and premium residential facades.

01

Square post and beam language

02

Open batten roof for shade and light

03

Visible hardware detail for an engineered finish

Outdoor rooms made simple

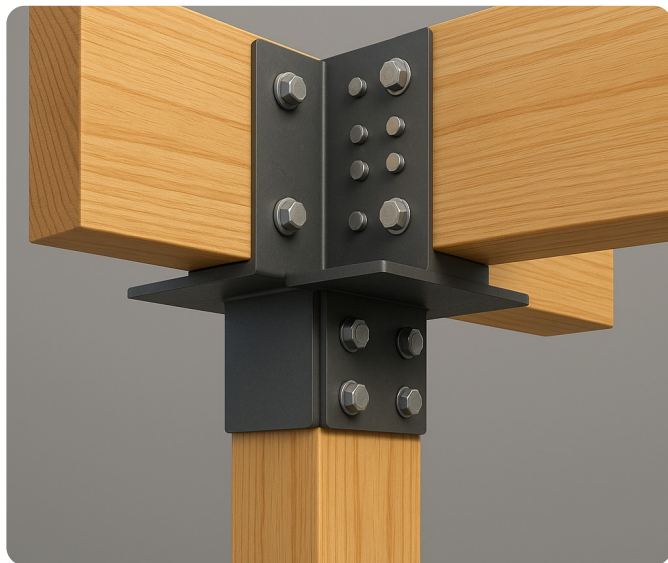

TYPICAL USES

- Alfresco extensions
- Freestanding courtyard structures
- Outdoor lounge and dining zones
- Poolside shade structures
- Garden rooms and feature frames

DESIGN FEATURES

- Modular frame language
- Repeatable beam and rafter layout
- Connection hardware visually expressed
- Timber appearance suited to residential work
- Designed as a quote-ready BuildQuote demo system

From inspiration to RFQ

Connection hardware shown as a visual demonstration only.

SYSTEM COMPONENTS

- TimberLock posts
- Primary beams
- Roof rafters / battens
- Corner and intermediate brackets
- Base plates and post anchors
- Bolts, washers and fixing hardware

DESIGN GUIDE

Inspiration, finishes and applications.

INSTALLATION GUIDE

Short demo quick-reference for assembly flow.

TECHNICAL SHEET

Dimensions, components and specifier notes.

Demo note: In a real BuildQuote product card, these demo documents would sit beside the manufacturer's official installation guide, technical manual, engineering certificate, warranty and other current product documents.
